web 9 what is internal reflection when light is travelling in a certain medium is reflected off an less optical dense material the process is referred to as internal reflection 10 explain guided mode guided mode is a pattern of electric and magnet field distributions that is repeated along the fiber at equal intervals 11

optical communication its history and recent progress - Jun 19 2022

web dec 14 2016 this chapter begins with a brief history of optical communication before describing the main components of a modern optical communication system specific

attention is paid to the development of low loss optical fibers as they played an essential role after 1975 the pdf ec2402 optical communication and networking two marks questions - Jul 21 2022

web optical fiber is one of the most important communications media in communication system due to its versatile advantages and negligible transmission loss it is used in high speed data transmission although optical fiber communication has a lot of advantages dispersion is the main performance limiting factor

optical communication wikipedia - Dec 26 2022

web visual forms visual techniques such as smoke signals beacon fires hydraulic telegraphs ship flags and semaphore lines were the earliest forms of optical communication 1 2 3 4 hydraulic telegraph semaphores date back to the 4th century bce greece

optical communication mcqs test your knowledge on fiber optics - Oct 24 2022

web about optical communication optical communication is the transmission of information from one place to another using light it is a form

of communication technology that uses light to transmit data through optical fibers such as fiber optic cables it is used in many applications including telecommunications computer networking and cable
